

Baby Blue Plus+

A breakthrough in baghouse leak testing technology

Technical Specifications:

- Wavelength: 450 nm
- Intensity: 10 000 $\mu\text{w}/\text{cm}^2$ at 15" (38 cm)
- Battery: Rechargeable NiMH 1800mAh battery
- Battery life: 4 hours
- Recharge time: 2 hours
- LED: 3 watt LED (Blue) with life-span of 100 000 hours
- Weight: 267 g
- Length: 19 cm

The Baby Blue Plus leak testing light kit is the newest advancement in the leak detection testing of baghouses. Uniquely engineered, the Baby Blue Plus offers power comparable to the much larger 150 watt A/C models, without the excessive heat and UV hazards. The powerful blue spectrum allows for a great fluorescent effect without the risks involved with pure UV light.

Constructed of rugged and durable injection molded ABS plastic, the Baby Blue Plus is designed for use in harsh environments. The LED technology allows for a useful 'bulb-life' of nearly 100,000 hours and up to 4 hours of use between charges.

The Baby Blue Plus test light kit includes:

- Both A/C and D/C QuickChargers (110v, 220v, and 230v available)
- Wrist tether
- Fluoro-Enhancing glasses
- Molded plastic case for extra protection
